Dr. Arthur Krigsman attended medical school at the State University of New York at Brooklyn, and completed his pediatric residency at SUNY Brooklyn - Kings County Medical Center. He holds dual board certification in General Pediatrics and Pediatric Gastroenterology.

Dr. Krigsman has extensive experience in the evaluation and treatment of gastrointestinal pathology (now known as autistic enterocolitis) common in children with autism spectrum disorders (ASD), and has detailed the symptomatology and endoscopic/histopathologic character of this disease in this unique, poorly understood group of children. His findings have been presented at scientific and lay meetings in the United States and Canada.
